

Solucom wins the Award for Best Mid-Cap Investor Relations at the French Forum for Investor Relations and Financial Communications

Solucom is happy to announce that it has received the **Award for Best Mid-Cap Investor Relations** by the Forum of Investor Relations and Financial Communications, at a ceremony that took place on 24 November at the NYSE Euronext auditorium.

Prize winners selected by a panel of financial analysts and institutional investors

These prizes are the result of a survey carried out among financial analysts who are members of SFAF (the French Society of Financial Analysts) and international institutional investors, looking to reward the best efforts in quality of financial information and the availability to the financial community of the directors of quoted companies.

The choice of prestigious institutional sponsors of the Forum, such as the SFAF, NYSE Euronext, IFA (the French Directors Institute), AFG (French Financial Management Association), CLIFF (the French Association of Investor Relations) and MiddleNext, the rigorous methodology, and the members of the jury, all make the Cup a true mark of quality in financial communications and investor relations.

This prize is especially prestigious for Solucom, whose efforts in financial communications for institutional investors and financial markets professionals have been recognised. It encourages the firm to continue this effort as well as to make an even bigger effort for individual investors.

The Methodology of the Cup for Best Investor Relations

The prize winners and candidates - quoted companies on the regulated NYSE Euronext stock market in Paris, in sections A, B and C - were selected by an online poll, carried out in September and October 2011, covering the performance of top management and investor relations managers over the last 12 months.

For the Cup for Best Mid-Cap Investor Relations, members of the SFAF, members of the SFAF Mid-Cap Committee, specialists from IDMidcaps and their institutional investor clients who specialise in mid-caps, were interviewed.

A jury made up of a Chairman and 7 members, representative of market players, ensured that this methodology was followed.
