Protection of High-Risk Installations

3D Printing

About Groupe Gorgé

Groupe Gorgé is an independent group that specializes in high-tech industries. Today, the Group is active in the fields of security and protection in extreme environments, as well as in the 3D printing sector. It employs around 1,700 people, is located in eight countries and directly exports around 40% of its activity. In its more than twenty-five year history, Groupe Gorgé has always developed and driven the latest technological and industrial innovations.

Smart Safety Systems:

Developing complete, innovative technological solutions for complex missions in hostile and confined environments.

Protection of High-Risk Installations:

Protecting people and ensuring the active and passive protection of installations for energy markets and industrial and tertiary sectors in France. Ensuring the maintenance of these protection systems.

3D Printing:

Enabling major industry players to find new routes to successful innovation and production processes by providing systems, 3D printers and new premium material.

In 2016, the Group reported revenue of €281.2 million. It is backed by 1,800 employees and operations in over ten countries.

Groupe Gorgé successfully delivers the first residential fire sprinkler system in France

Groupe Gorgé announces the successful delivery of the first residential fire sprinkler system in France to EHPAD (a housing project for dependent, elderly people) located in Nérac, Lot-et-Garonne.

As part of this contract, CLF Satrem, a Groupe Gorgé subsidiary, supplied, installed and commissioned a residential fire sprinkler system aimed at improving evacuation conditions in the event of a fire and limiting its spread. Live fire tests were successfully conducted in the presence of several fire protection players.

In September 2016, CLF Satrem had conducted the first conclusive residential sprinkling tests in partnership with the City of Bayonne and the Fire and Rescue Service of the Pyrénées-Atlantiques department. This large-scale operation was a first in France.

Thanks to this first installation, CLF Satrem confirms its leading position in the implementation of residential sprinkler systems in France, and this market's potential.

About CLF Satrem

For more than 25 years, CLF Satrem has been designing, integrating and maintaining stationary solutions for active fire protection, targeting all types of applications and industries.

Disclaimer

GROUPE GORGE press releases may contain forward-looking statements regarding GROUPE GORGE's targets. These forward-looking statements reflect GROUPE GORGE's current expectations. Such forward-looking statements and targets depend on known and unknown risks, uncertainties and other factors that could cause actual results, performance or events to differ materially from those anticipated herein. The risks and uncertainties that could affect the Group's future ability to achieve its targets include, in addition to those indicated in the press release: the strength of competition; the development of markets in which the Group operates and notably the 3D printing division; currency fluctuations; obtaining the export authorizations that may be required for certain activities; control of costs and expenses; changes in tax legislation, laws, regulations or their enforcement; our ability to successfully keep pace with technological advances; our ability to attract and retain qualified personnel and key staff; the evolution, interpretation and uniform application and enforcement of International Financial Reporting Standards (IFRS), according to which we prepare our financial statements; manufacturing and supply chain bottlenecks; the performance of our business partners (subcontractors, agents, suppliers, etc.). Some of these risk factors are set forth and detailed in our Document de Référence (Registration Document including the annual financial report filed with the French Autorité des Marchés Financiers), available on our website www.groupe-gorge.com. This list of risks, uncertainties and other factors is not limitative. Other unanticipated, unknown or unforeseeable factors, such as changes in the economic situation or financial markets, could also have a material adverse effect on our targets.

This press release and the information it contains do not constitute an offer to sell or to subscribe, or a solicitation to purchase or subscribe shares or securities in GROUPE GORGE or in its listed subsidiaries in any country whatsoever.
