

Press release

Fermentalg and ADL Biopharma announce a toll manufacturing alliance to produce Omega 3 food supplements

Libourne – 26 September 2018 – Fermentalg (Euronext – FALG), a French market leader in microalgae for human nutrition and health, and ADL BioPharma (ADL Bionatur group, Madrid – ADL), a major European player for the development and production of fermentation process-based projects, today announce the conclusion of a long-term manufacturing contract to produce Fermentalg's algal oil DHA ORIGINS[®].

ADL BioPharma, 100% subsidiary of ADL Bionatur group, is the European leader in biotech contract manufacturing fermentation industry. The company owns and operates one of the most advanced industrial biotechnology plant in Southern Europe with a current fermentation capacity of 2,400 m³. Combined with its large scale of operations and experience in the field, ADL BioPharma offers the highest quality standards, including European and US FDA certifications for the pharmaceutical, cosmetics and food industries.

ADL BioPharma and Fermentalg plan to complete the validation and technology transfer phase before the end of 2018, following which ADL will dedicate a part of its fermentation capacity to Fermentalg productions, allowing it to supply hundreds of tons to the growing DHA ORIGINS 550[®] market.

Philippe Lavielle, CEO of Fermentalg, says: *"This long term contract, following the signature of a major commercial partnership, secures our supply of our high value DHA ORIGINS[®] 550[®], the algal DHA with the highest natural concentration on the market. ADL Biopharma's scale, extensive experience and capabilities in fermentation and extraction technologies will support our commitment to become one of the world's largest producer of algal DHA."*

Pilar de la Huerta, CEO of ADL BioPharma, says: *"This is the fourth long term CMO contract that we signed during the latest ten months, guaranteeing more than 85% of our current business plan for the next years. This is a validation of our assumptions about the market needs for state of the art fermentation industrial sites. We are very proud of the quality of our customers in terms of innovation and quality. Fermentalg is doing a great development with their product, targeting the premium algal Omega-3 market worldwide for human nutrition, and we are happy to be their partner for a key part of their value chain."*

About Fermentalg:

An expert in research and bio-industrial use of microalgae, Fermentalg seeks to provide sustainable solutions and innovative products that contribute towards the creation of natural, healthy and effective products. Our business: development, production and sale of active ingredients extracted from microalgae for the agri-food, health and nutrition sectors. Natural nutritional oils, pigments and antioxidants, as well as specialty proteins, comprise our present and future offering.

Fermentalg shares are listed on Euronext in Paris (FR0011271600 - FALG).
