

## Press release

October 16, 2018

### FUTUREN commissions a 20 MW wind farm in the Meuse department and launches the construction works for two new wind farms in France

FUTUREN announces the commissioning of a new wind farm located on the territory of the municipality of Demange-aux-Eaux, in the department of Meuse, in France. The Demange wind farm comprises 9 wind turbines with a unit capacity of 2.2 MW, for a total capacity of 19.8 MW.

Construction works had started in September 2017. The Demange wind farm now produces green electricity, that will cover the electricity needs of more than 20,000 households each year.

This commissioning brings to 428 MW the gross installed capacity operated by FUTUREN for its own account, including 200 MW located in France.

Furthermore, FUTUREN recently signed a turbine supply agreement to purchase 11 wind turbines for a 38 MW project currently under construction in the department of Aube, as well as a turbine supply agreement to purchase 7 wind turbines for the construction of a 6.3 MW project, in the department of Hérault.

The launch of construction of these two projects brings to 58 MW the cumulative capacity of FUTUREN currently under construction in France.

#### About FUTUREN

FUTUREN is a group active in the field of wind energy, present throughout the entire wind value chain. The Group develops, builds and owns wind farms in four countries: France, Germany, Morocco and Italy. In total, the Group manages 652 MW for its own account and for third parties.
