

CSR POLICY: BOOSTHEAT LEADS ITS SECTOR

In June, as part of a continuous improvement approach to social and environmental responsibility (CSR), **BOOSTHEAT** sought the expertise of **EthiFinance**, an independent extra-financial ratings agency. **EthiFinance**, which specialises in the management of sustainability-related risks and opportunities, awarded **BOOSTHEAT** an overall score of 67/100, making it a “Sustainable leader”.

AN “ADVANCED” LEVEL OF ESG¹ MATURITY AND A “MAJOR” SUSTAINABLE DEVELOPMENT OPPORTUNITY, DESPITE BEING FOUNDED ONLY RECENTLY

To assess **BOOSTHEAT**'s performance, **EthiFinance** referred to the Gaia Rating company-oriented ESG maturity methodology, and to the United Nations' product-oriented Sustainable Development Goals (SDGs).

Up 28 points
relative to 2017²

For the first part of the assessment, **EthiFinance** looked at four themes: governance, social, environment and external stakeholders. With an overall score of 58/100², corresponding to an “advanced” level of ESG maturity, **BOOSTHEAT** is 15 points ahead of the average achieved by companies in its business sector. **BOOSTHEAT** has also increased its score by 28 points relative to 2017 across all rating themes. The company scored highly on the social theme (70/100) and the external stakeholders theme (64/100), particularly regarding equal opportunities, health and safety, relations with suppliers, customers and civil society, and product liability.

With a product portfolio that is entirely focused on energy transition, the second part of the assessment found that **BOOSTHEAT** is making a “major contribution” in terms of sustainable development opportunities, with a score of 75/100.

The **BOOSTHEAT.20** boiler is therefore regarded as an efficient solution, and one that addresses the UN’s seventh Sustainable Development Goal, which involves ensuring access to affordable, reliable, sustainable and modern energy for all.

75/100
Opportunity score: 75/100
Rated as a “Sustainable leader” for its major contribution to the UN’s Sustainable Development Goals

58/100
ESG maturity score: 58/100
“advanced” maturity
Sector average: 43/100

The UN’s 17 Sustainable Development Goals are a call to action for all countries, aiming to promote prosperity while protecting the planet. They are a response to global sustainability challenges, particularly those related to climate, biodiversity, energy, water, poverty, inequality, prosperity, peace and justice.

BOOSTHEAT: A RESPONSIBLE COMPANY WITH COMMITMENTS THAT MATCH ITS AMBITIONS

BOOSTHEAT is giving consumers the opportunity to play an active role in the new era of energy with its **BOOSTHEAT.20** boiler, and wanted to quantify its level of responsibility and its contribution. This proactive approach, which is fully consistent with its values and strategic market position, reflects **BOOSTHEAT**’s ambition and desire to achieve 360-degree responsibility.

The rating process enabled **BOOSTHEAT** to identify areas for future improvement, particularly in the workforce-related and HR theme, which is crucial for the company.

“**BOOSTHEAT** is not just an extremely energy-efficient product, but a company that has developed and continues to grow around a shared philosophy. We are delighted with these results, and we remain focused on the path ahead.”

Luc Jacquet,
CEO and co-founder of **BOOSTHEAT**

About BOOSTHEAT

BOOSTHEAT, founded in 2011, designs, develops and produces heating solutions that are technologically advanced, energy-efficient and sustainable. **BOOSTHEAT**’s new-generation boilers feature a patented thermal compressor, enabling them to achieve efficiency of up to 200% and reducing energy bills by up to half. They are more environmentally friendly and economical, giving all users the opportunity to achieve an immediate and significant reduction in their environmental impact. **BOOSTHEAT** has established its head office and production site in Vénissieux near Lyon, which is an established hub for the HVAC³ industry. The company has been awarded the “Entreprise Innovante” (innovative company) and French Fab accreditation.
