# Fermentalg leads the list of listed companies among Champions of Growth in 2022

**Libourne - February 11, 2022** – Fermentalg (Euronext - FALG), a major French player in microalgae, is listed for the second year in a row as one of the Champions of Growth in France.

For the sixth time, Les Echos publishes the results of a survey dedicated to high growth companies in France. This multi-sector survey is conducted in collaboration with the Statista Institute. The authors of the survey explain that they want to honor "these companies (that) stimulate our economy, change our society, create jobs and contribute to the return of growth in our country."

The list brings together the 500 companies with the highest rate of revenue growth over the 2017-2020 period. With a 13-fold increase in turnover over the period, i.e. an average annual growth rate of 135.09%, Fermentalg is ranked 1<sup>st</sup> among listed companies, 1<sup>st</sup> in the "Chemicals, Pharmaceuticals, Cosmetics" sector, and 14<sup>th</sup> nationally for all sectors combined.

This performance is linked to the acceleration of sales of Omega-3s DHA ORIGINS®, the only range of Omega-3s of algal origin that can announce a natural concentration of at least 550mg/g of DHA. It is the first product to be marketed using Fermentalg's unique and patented technology.
