

## PRESS RELEASE

### **Smart Salem signs master agreement with Dubai Health Authority (DHA) on opening of third center**

Paris, July 11<sup>th</sup>, 2022

Visiomed Group (FR0013481835 – ALVMG), a group specializing in innovative healthcare technologies and services, today announces the signing of a master agreement by its subsidiary Smart Salem with the Dubai Health Authority (DHA) on the opening of its third center.

As a wholly-owned subsidiary of Visiomed Group, Smart Salem is the first digital center to offer medical fitness tests, which are required for obtaining residence and work visas in the United Arab Emirates.

This authorization confirms the Group's current organic growth strategy and intention of ramping up the Smart Salem development plan. The third center will be located in the Dubai Knowledge Park, one of TECOM Group's most vibrant business hubs. The master agreement was signed for a five-year term (August 2022 - July 2027) subject to renewal.

A plot has been chosen in the Knowledge Park complex and will soon be confirmed for the construction of the new center. Scheduled to open towards the end of 2022, this will be the third center operated by Smart Salem, following those in City Walk (opened in 2020) and the DIFC (set to open in August 2022).

#### About VISIOMED GROUP

Founded in 2007, VISIOMED GROUP relies on a long experience in the health sector to invest in innovative health technologies and services in France and abroad.

The Group now has two wholly-owned subsidiaries:

- **BewellConnect, created in 2014, pioneer in connected health and teleconsultation solutions**

BewellConnect offers an enriched technological universe, both in medical devices and software, making it possible to respond to all telehealth use cases: enriched and assisted teleconsultation, home telemonitoring, hospital monitoring, tele-expertise, teleassistance and tele-regulation.

BewellConnect's flagship product, VisioCheck, is the first telemedicine station weighing less than 300g for healthcare professionals, available in a case, station or modular health space.

BewellConnect is now deploying its solutions in France and abroad.

- **Smart Salem, the first digital medical analysis center accredited by the Dubai Ministry of Health (DHA) in the United Arab Emirates**

The Smart Salem offer is based on know-how in medical analysis, radiology and data analysis and processing to detect nearly 35 diseases in 7 minutes in a patient (in particular HIV, hepatitis and tuberculosis) by offering reliable results, readability and exceptional patient experience enabled by advanced artificial intelligence and virtual reality technologies.

Smart Salem's "Medical Fitness Assessment" offer resulting from this know-how thus makes it possible to obtain a residence or work visa in the space of 30 minutes compared to 10 to 15 days in historical health centers.

Smart Salem is a technological platform offering many growth opportunities, as shown by the opening of the second center in Dubai in September 2022 and the authorization received for the opening of a third center, planned to open in the first quarter of 2023.

Based in Paris, VISIOMED GROUP is listed on Euronext Growth (ALVMG). More information on [visiomed.fr](https://visiomed.fr), [smartsalem.ae](https://smartsalem.ae) and [www.bewell-connect.com](https://www.bewell-connect.com).
