Press release – July 12, 2022 - 7:30 a.m.

Full-year 2021/2022 revenues to exceed guidance

Paragon ID (Euronext Paris - FR0013318813 - PID), the European leader in ID solutions, technologies used in the Mass Transit & Smart Cities, e-ID, Track & Trace and Payment markets, announces that full-year revenues for its financial year 2021/2022 will exceed the level previously targeted.

The company's announcement of its revenues for the third quarter, dated 27 April 2022, stated: *"Full-year revenues (are) expected to exceed €120m, despite ongoing challenges in Supply Chains and the uncertainty of the current economic environment"*.

The recent resolution of the strikes in the Finnish paper factories, the loosening of some constraints in global supply chains and some improvements in availability of transportation for products, all helped ensure that the Company's strong commercial performances translated into better-than-expected sales realised in May and June.

Revenues in the final quarter of the year (ended June 30th), to be published on July 26th, have therefore exceeded previous expectations.

As a reminder, consolidated revenues, for the first nine months of the 2021/22 financial year, amounted to €91.2m, up 51% (+36% at constant exchange rates and scope) on 2020/21.
