

## Q2 2021-2022 revenues of €35.4m, in line with expectations

- Year-on-year decline due to strong performance last year but strong growth versus pre-crisis levels;
- Ability to adapt commercial policy to inflation;
- Completion of marketplace launch scheduled for summer 2022.

**11 May 2022.** Vente-unique.com, a European specialist in online furniture and home décor sales, today announces its unaudited revenues for the first half of its 2021-2022 financial year (from 1 October 2021 to 31 March 2022).

Vente-unique.com posted Q2 2021-2022 revenues of €35.4 million, down 20.1% year on year. This broadly anticipated decline was due to the high level of business achieved in Q2 2020-2021 (revenues up 75.5%), when a number of European countries were under lockdown. Q2 2021-2021 revenues were up 40.2% versus Q2 2019-2020, the last period before the outbreak of the health crisis.

Likewise, H1 2021-2022 revenues of €73.0 million were down 17.4% year on year but up 41.8% versus H1 2019-2020.

### Regional variations impacted by lockdown

IFRS (€000) Six months ended 31 March	2020	2021	2022	Change 2021-2022
France	29,280	47,173	38,879	-17.6%
Northern and Eastern Europe <sup>1</sup>	14,681	28,659	22,921	-20.0%
Southern Europe <sup>2</sup>	7,519	12,578	11,190	-11.0%
<b>Total</b>	<b>51,480</b>	<b>88,410</b>	<b>72,989</b>	<b>-17.4%</b>

The change in first half revenues between 2020-2021 and 2021-2022 was directly related to the duration of lockdowns, which triggered a widespread surge in online purchases of goods and services prior to a gradual return to underlying trends.

Accordingly, **France** (€38.9 million) is in line with the European average and recorded a decline of 17.6% year on year but an increase of 32.8% versus H1 2019-2020.

**Northern and Eastern Europe** (€22.9 million) was the region most heavily impacted by lockdowns last year with revenues down 20.0% year on year. This decrease is also explained by the impact of the conflict in Ukraine on Q2 2021-2022 revenues in Poland and Germany, due to a slowdown in demand in both countries. However, revenues were up 56.1% compared to two years ago.

<sup>1</sup> Austria + Belgium + Germany + Luxembourg + Netherlands + Poland + Switzerland

<sup>2</sup> Italy + Portugal + Spain

**Southern Europe** (€11.2 million) posted the mildest decline out of the three regions, down 11.0% year on year thanks to a less challenging performance last year (only 14 days of lockdown in Italy). Compared to two years ago, revenues were up 48.8%.

### **Tight margin control amid an inflationary environment**

During the first half of the year, Vente-unique.com had to deal with a particularly tense environment. In addition to the drop in sales mentioned above, there was an inflation of costs (product prices, transport, exchange rates, etc.). However, Vente-unique.com managed to maintain a high level of product availability due to the diversification of its supplier network and its inventory level at the end of September. Furthermore, thanks to the perennial relations with long-standing partners, tight cost control and the ability to pass surplus costs onto the customer, Vente-Unique.com managed to stabilise its sales margin over one year.

As such, Vente-unique.com expects to post a first half operating margin towards the upper end of the sector.

### **Preparations for the next growth phase via the marketplace**

In view of the deterioration in the global geopolitical and economic situation, Vente-unique.com is remaining cautious about the second half of its financial year. The comparative effect is expected to wear off during Q3 2021-2022, which could lead to a gradual improvement over the second half.

To continue to keep tight control of costs and preserve financial resources, Vente-unique.com has decided to focus short-term investments on launching its future innovative marketplace. Technical set-up with Mirakl, the global leader in marketplace logistics solutions, and logistical preparations are going ahead according to plan and go-live is scheduled for summer 2022.
